

Status Bar

single-sim status bar

Animation: slides from bottom to top.
Will blur in/out if implemented someday.

If the user taps on the wrong statusbar icon, she should be able to slide over the right one, and the relevant menu will open.

Panel background :

■ #313131 with top and bottom dropshadows

Panel title :

A] t.xl

a #ffffff

sub titles (i.e: "available") :

A] t.h

a #ffffff

Other labels :

A] t.n

a #ffffff

aaa light (25)

Goto prefs icon :
